PERSONAL INJURY PRACTICE

It is times when we are most vulnerable that we often need the greatest assistance. Yet in the case of an injury, we focus on health and wellness issues first, assuming there will be sufficient time to protect our legal rights at a later date. But too often, time is the enemy of justice. Ideally, in the unfortunate circumstance of injury, we would not sacrifice our health or our legal rights.

Let Direction Legal's Personal Injury practice help you to protect and pursue compensation for your injuries while you focus on healing. We help clients who have been injured in:

- **Car accidents**
- **Slip and falls**
- **Dog bites**
- **Sporting accidents**
- **Assaults**

In addition to personal injury claims, Direction Legal also provides services in the following areas:

- Immigration & Citizenship
